DEPARTURE OF THE STTH REGIMENT.-Want of space yesterday, prevented our making more than a mere mention of the depar u of Col. McCunn's Regiment.

Daring the afternoon of Saturday. fine sword and revolver were presented to Col. McConn by his friends. Mr. RICHARD MURPHY made the presentation in a f-w pertinent remarks, to which Col. McCuan gracefully replied. At 6 o'clock P. M. the officers being drawn

up in line in front of the Col.'s tent, Mr. Jous S. Agnew, on behalf of the mercantile men of New York, presented the regiment with an elegant silk regimental flag, accompanied with a few appropriate remarks. Col. McCons returned thanks for the patriotic gift, and the stattering terms in which it had been conveyed, and closed his remarks by an elequent tribute to Ireland, the land of his nativity.

The Hon. Samual J. Tilden followed at

some length in viadication of Irish muscle and Irish valor. A fine pair of gu'de colors were then pre-

sented to the regiment by Miss Many Mc-HUGH, sister of Captain McHugh of Company D, in a few seasonable and pertinent remerks. Capt. McHoon replied to the fair donor on behalf of the regiment, and hoped for the time when, after Irishmen had rescued the American flag from distonor, they might cross the Atlantic and rescue their native country ders and men in good health. wear quies, and the ofmen each They are a very hardy-looking body of men, and fully armed and equipped, the field officers taking their horses with them. WELCH has now jectile, moved off from the Custom House on hand 2,000 stand of Entield arms, rifles and muskets, and expects to receive further supplies by every steamer from Europs, so that he expects soon to furnish all the regiments from

this city with these improved arms. THE LINCOLN GREENS CAVALRY .-- M.jor BrECH, formerly of the English cavalry service in India, is now organizing in this city a cavalry corps under the above title. Capt. DIRCKLE, who has for a number of years been in the Prussian cavalry, will be Lieutenan Colonel, and Major BYRON will be Colonel. This is distinct from the Lincoln Cavalry, a name assumed by the organization commanded by CARL SHUEZ. Capt GREEN, of the First (cavalry) regiment, N. Y. S. M., at present Euperintendent of the Park Barracks, will be Captain of the first company, and volunteers will be received by him at the Pa:k Barracks daily.

MOVEMENTS OF TRANSPORTS.-The steam transport City of New York, now at pier No. 29, N. R., is expected to sail early this week for Fort Pickens, between which and Key West she wil be employed as a tender and tow boat. She takes 450 tons of coal for the ficet, and some other cargo. The steamer Empire City is also lying at the same pirr, ready coaled, and able to start at a few hours' notice. Some dozen or more army wagons and other material are on the dock near her, awaiting transpo. tation. The Alabama, at the foot of Beach street, and the Atientic and Baltic, at the foot of Canal street, are also ready for an early start.

Collision .- The steem r Delaware, which strived at 6 o'clock Sa'weday morning, from Philadelphia, when off the Battery, in rounding large ship, came in collision with two schoonra, haded with wood, which were in tow of a team tug. One of the schooners had her bow tove in and bowsprit carried away, the other sustained but trifling damage, and the Dalaware sustained no damage.

## CITY NEWS.

TRIAL OF RIFLED CANSON-A COMPLETE Success.-The James' rifled cannon and projectiles, which has already acquired considerable no ice from their having been adopted by the military of several of the states and encorred by the Board of Ordnance officers of the U. S. War Depart ment, after a protracted series of experiments, were tested on Saturday last, in presence of a large number of invited fully armed and equipped during the last guests, in the firing at long ranges. The trial was made in the lower bay.

At about noon, the tug Mercury, having on

board a common 42 pound cannon, rifled to

carry a 11 pound James' projectile, and a brase wharf, at the Battery, and accompanied by the steamboat Keyport, conveying about 150 invited guests, passed down to the lower bay. On the Keyport were a large number military and naval men members of the State Military Board, Col ector BARNEY, Capt. BENNETT, and quite an attractive display of ladies. Abreast of Sandy Hook, the tug was laid too, and the Keyport taking up a good position near by, the firing commenced. The rifled six pounder, carrying a 11 pound projectile, was first tested. It was fixed at all eleva-tions, from a point-blank to fifteen degrees, but from the rolling of the tide, the difficulty of fixing a target and keeping the position of the boats, and the fact of its accurate aim having already been thoroughly proven, nothing was attempted but to show the power of the gun. This was done most conclurively. Both shot and shell were thrown to distance of near two miles with an elevation o ten degrees, but reither fired at the highest elevation of fifteen degrees, could be seen to strike even with the aid of a glass. The gun was pointed towards Jerrey, a general aim taken at all the world to the left of Richmond county, and the result was lost in the distance. The shells invariably burst immediately or

ments on every side. Next came the trial of the rifled cannon carrying the 100 pound projectile, and this also proved to be an entire success. An e'evation of eighteen degrees was the greatest which could be attained, with the carriege on which the gun was mounted, but even with this, not one baif of that which the gun would be effective if other wise mounted a shot was thrown to the distance of over four miles. The Keyport lay about two miles from where the shot struck the water and from her, the spray i hrew up hish in air, could be distinctly seen. Both the large and small guns throw with the same weight of powder used in common

tonching the water, throwing a shower of frag-

uprified cannon of the same bore, a projectile of de uble the weight to double the distance. After the conclusion of the firlag. Gon. James, the inventor of the arm, came on board the Kayport from the fug where he had bee sup-rintending the firing. He was greated with the most enthusiastic chesrs, and, on the
